modelers, and receive the required training. 4) Never operate your model aircraft near or over buildings, power/telephone lines, or other obstacles. Never operate your model aircraft near or over yourself or other people! 5) RC models and accessories are not toys, and should be kept away from children, without proper adult supervision.

Guardian 2D/3D Stabilizer - Eagle Tree Systems, LLC.

man lifts should be used. – Never lift anything over head or over top of other persons. – When moving material, ensure that there are no other inter-ferences that might come into contact with the unit such as overhead power lines. – To avoid lacerations, be aware of the possibility of sharp edges on metal objects.

Installation and instruction manual Dry-type transformers

The investigation found that a fatigue fracture had developed in one of the two upper right-hand wing lift strut attachment fittings. This fatigue fracture eventually led to an overstress failure of the other fitting during the left turn prior to the final approach, followed by the separation of the right wing strut from the wing.
