Millon Clinical Multiaxial Inventory (MCMi-III)

Based on Dr Theodore Millon's ground-breaking theory of personality and psychopathology, the MCMi-III (Millon Clinical Multiaxial Inventory-III) assessment provides one of the most well-researched and widely used measures of adult psychopathology available today.

Millon™ Clinical Multiaxial Inventory-III (MCMi-III™)

This Third Edition development of the MCMi-III adds the Grossman Facet Scales, a series of therapy-guiding facet subscales, to the basic personality scales of the instrument. These facet scales identify the most salient clinical domains (e.g., interpersonal, cognitive) that characterize the patient taking the inventory.

The Millon Clinical Multiaxial Inventory-III (MCMi-III) (2009)

test results. Guided by the MCMi invento-ries, three scales (Disclosure, Desirability, and Debasement) were devised to help clini-cians identify such tendencies and to correct for their effects on the instrument's clinical scales. There is also a Validity indicator to detect random responding, confusion, and reading problems. Negative Health ...
