John-Tom

This engine represents major advance over the FD3 64 and has been further developed to produce 50 Newton thrust (11 lbs). It will run reliably with the revised chamber at a temperature of 550 deg C or cooler. KJ66 2 of 3 masterplans Materials The whole of the front of the engine is aluminium. The diffuser vanes are made separately and glued in ...

KJ-66 micoturbine Specification Design

These RC airplane jet engines are definitely NOT for the beginner and a rigid safety protocol MUST be followed when running and especially when flying! An RC jet aircraft can fly at speeds in excess of 200 MPH and weigh up to 50 pounds-this is definitely NOT a toy! In the wrong or inexperienced hands such a model can cause very serious damage and/or injury. The pilot's reflexes, when flying at ...

RC jet engines simplified.

A true turbine rc model jet engine adds the ultimate touch of realism to a radio controlled jet, and commercially produced units for rc use are now widely available - if not always affordable! Turbine rc jet flying has become a big thing in recent years and there are some spectacular models around, large and small, but this aspect of the hobby ...
