gallon drafts through the meter to completely purge it of air. Use the air bleed plug found on certain meters (older A.O. Smith, Gilbarco, and Southwest) to allow the air to escape. All air must be purged from the meter to obtain consistent results. (If the nozzle will reach the tank fill pipe, run 50 to 100 gallons through the meter.)

Caterpillar Service Manual 302 Excavator

The first calculating gasoline pumps, capable of measuring the quantity of fuel dispensed as well as calculating the sale price, appeared in 1933. These service instructions from pump manufacturer Tokheim include directions for both clock face dials and reeled number displays. The pumps, particularly the Model 36 on page 44, show strong art deco design influences.
